# How to insert/edit link for Event Hall page.

Note: Do not edit directly on the CMS page. Doing so will cause the tagging to be removed. If the tagging is removed, there will be no analytics collected.

1. Download the source code from https://github.com/nurazwan/SBPA-WBD2021.

2. Unzip the file and look for 'event.html'

3. Right-click the file and open it with any text editor (notepad or textedit) or any IDE such as Sublime Text, Brackets or Visual Studio Code. **Do not use a word processor programs such as Microsoft Words or Google Sheet.**

4. Look for the appropriate comment. Comments are in <!-- --> tags.

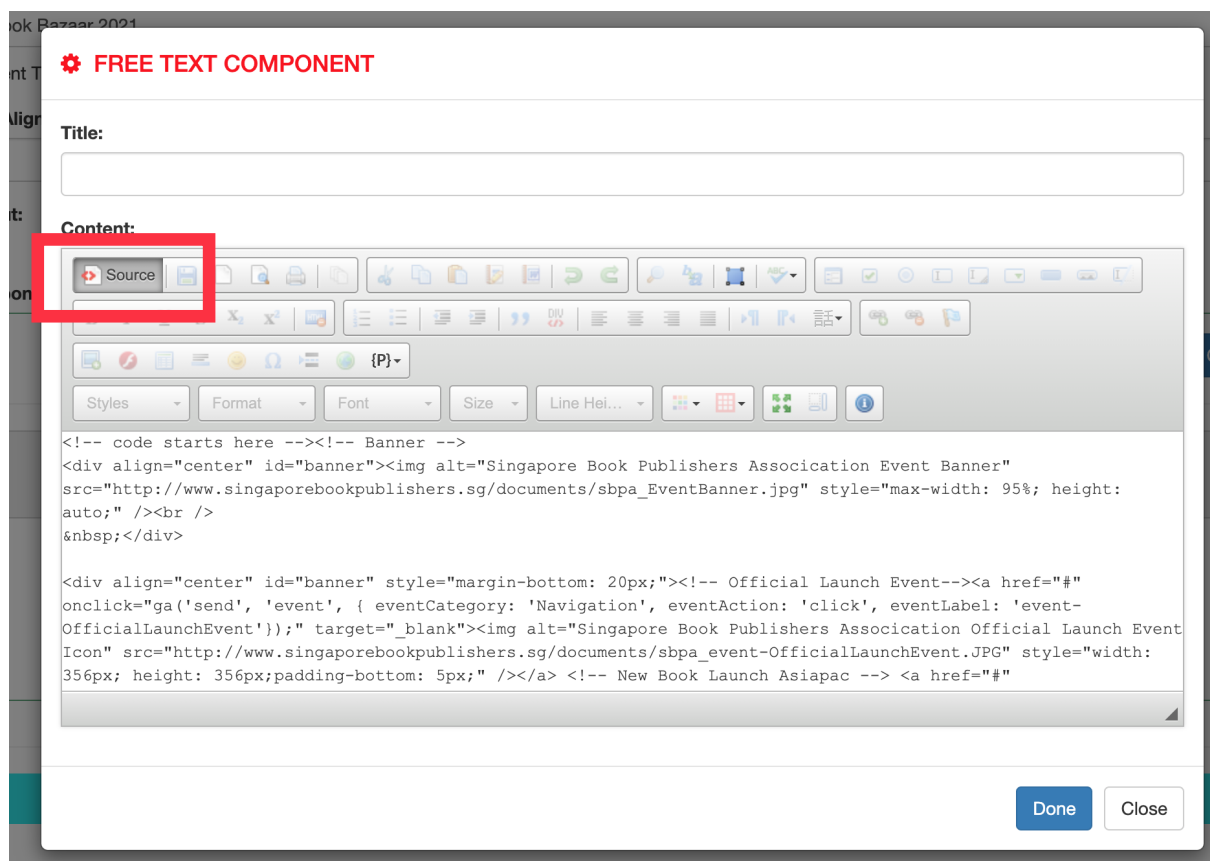

```
<!-- Official Launch Event-->
    <a href="#" onclick="ga('send', 'event', { eventCategory: 'Navigation', eventAction: 'click', eventLabel: 'event-Offic
```

5. Replace '#' with the created link.

6. Copy all the codes from <!-- code starts here -- > to <!-- code ends here -- >

7. Login to fle.fromslabs.com

8. Navigate Content > Pages > SingaporeBookBazaar2021-event and click edit

9. Scroll down till the content layout section

10. Click the edit button

11. Important. Click source

12. Click done. And click save.
